

Happy  
Halloween  
Oct 31<sup>st</sup>

Halloween and computers share a common misperception,  
Both are blamed often for being a scary, troubling invention.

However there are ways to scare away these fallacies which are quite unjust,  
Relax and enjoy the holiday...for your computers...in Excalibur ye' should trust!

Don't be frightened or concerned by ghouls, goblins or a ghost,  
For they too can be kind and fun like Cloud services we host.

While the Hallow Eve can be a spectacle that is odd, weird, and freaky,  
Call the wrong type of computer support and all you'll get someone quite geeky.

Call Excalibur Technology today for all your business network needs and support,  
Your company will thrive and you'll have no more tech fears to report!

Want more than just candy for Halloween treats? ([CLICK HERE](#))  
Then like us on Facebook and follow our Tweets! ([CLICK HERE](#))

If you are our friend and give us a LIKE,  
You might win an iPod, and we'll ship it that night!

If Halloween or your network are ever too much and you feel quite affright,  
Give us a call at **877-NET-KING** and we'll send out an Excalibur Knight!
