Re: QC Audit

Good morning Missy,

At this point I would say it is nearly impossible to exceed my expectations. Excalibur has set the bar so high I really couldn't expect much more. I am continually pleased with your company's performance, and this last issue with the T-1 line and re-setting computers was no exception. Jeff Silverman's involvement in correcting the small glitches bordered on tenacious. I have, and will continue too, recommend Excalibur Technology Corp. to friends and business contacts.

Ray Wakeman, Operations
Mechanical Power, Inc.
