COUNTRYSIDE FIRE PROTECTION DISTRICT

JAMES D. SPIEGEL, CHIEF

FRANCIS L. WOLOWIC, PRESIDENT

August 9, 2004

To Whom It May Concern,

Countryside Fire Protection District has been serviced by Excalibur Technology Corporation since April 2002. We invited Excalibur in to our organization and they guided us through developing our IT needs. They setup and maintained the network that serves both of our fire stations with expertise and professionalism and continued after that with a regular maintenance program. As our needs expanded, Excalibur helped us acquire a qualified individual that fit perfectly into the Fire District's IT staff position.

We will continue with ongoing support from Excalibur Technology on a monthly basis to keep our network running smooth. We are more than satisfied with their level of support, quick response and expertise and look forward to maintaining them as part of our team.

Very truly yours,

A handwritten signature in black ink, appearing to read "Jeff Steingart", with a long horizontal line extending to the right.

Jeff Steingart
Deputy Chief
