Open Letter of Recommendation  
RE: Excalibur Technology

To Whom It May Concern:

GSF Mortgage has worked with Excalibur Technology for the past five years. In those five years, Excalibur has proven to be an excellent service provider and a business asset.

We have used Excalibur to purchase all of our computer equipment, build and maintain our network, design our web site, create custom programs and provide ongoing support to our employees. They have worked with several of our offices around the country and done on-site work in three states. Their staff has always been professional, competent, and a pleasure to work with.

In addition to expected services, Excalibur Technology has proposed and implemented several solutions that have saved our company thousands of dollars. We profit from a stable, efficient, and effective work environment as a result of their hard work. We will continue to use Excalibur Technology as our network solution service and give them our highest recommendation. Please feel free to call me with any questions.

Sincerely,

Jed M. Babbitt  
MIS Director
